MEMORANDUM FOR: Members of the Medical Career Service Board

SUBJECT : Career Planning and Development

REFERENCE : OMS Regulation 20-5, dated 16 March 1966

1. It is pleasant to note the progress that has been made in the several Career Service Board Meetings that have been held under the new referenced regulation. Basic criteria and appropriate guidelines for a revised program have been established. It is now timely to consider specific implementation of the program and it is proposed that we address ourselves to individual career planning and development.

2. Accordingly, it is requested that each Board Member be prepared to discuss this aspect of our program at our next meeting. The views of Panel Chairmen are especially requested.
